

TcpSocket

```
graph BT; LocalTcpServer --> TcpServer; TcpServer --> TcpSocket;
```

The diagram illustrates a class hierarchy with three classes arranged vertically. At the top is 'TcpSocket', in the middle is 'TcpServer', and at the bottom is 'LocalTcpServer'. A vertical arrow points from 'TcpServer' up to 'TcpSocket', and another vertical arrow points from 'LocalTcpServer' up to 'TcpServer', indicating that 'TcpServer' inherits from 'TcpSocket' and 'LocalTcpServer' inherits from 'TcpServer'.

TcpServer
